Featuretrac.com Bug Report

In order for us to promptly and accurately isolate, diagnose, repair, test and reconcile a problem within Featuretrac.com, the programming team needs specific information on how your particular bug was encountered. Please answer the following open-ended questions below and return to your account representative and/or Featuretrac.com help desk.

Q: What is your account name?

A:

Q: What is your login ID?

A:

Q: What screen did the problem occur on? Ex. Ad mention & Share, Ad Detail, Management Summary, etc

A:

Q: What options were used and what were the specific values used within those options? The options available will depend upon what screen the problem occurred in. Please be as specific as possible. Ex. period chosen, type of ad mention, how netted, which measure(s), which total(s), which market(s), which category(s), etc.

A:

Q: Were any custom categories or custom markets used? If yes, please identify each as either a custom category or a custom market. Then specifically state what is included in each custom category and/or custom market.

A:
